 LS 2209 / HS 3209

Regal Blue
 LS 2210 / HS 3210

Slate Blue
 LS 2211 / HS 3211

All Premium Colors will require a longer lead time, minimum order quantities, and special pricing for each color. Pre-negotiated pricing applies only to Standard Colors. Please check with your PM sales rep for further information.

Though every effort is made to maintain color consistency from batch to batch, there may be slight color variations. In addition, gloss and color may vary due to weather conditions, application technique, and substrate texture.

SILICONE ROOFING SYSTEMS

PM Custom Color Process

Whether it's for safety reasons, branding, or just to give your roof a new look, PM's custom color silicone is the perfect product for your roof. Since we make our silicone in house, we have the unique ability to custom match colors to meet any specific needs. Our team of chemists will work with you to ensure the best color match available and you won't pay for or receive your silicone until you are 100% satisfied with the final product!

Custom Color Matching Process

1. Send a physical sample or paint color chip number to:
Progressive Materials
Amanda Waugh
540 Central Court
New Albany, IN 47150
2. Once a color sample is received, PM will formulate and produce a wet sample and drawdown.
3. Color drawdown is sent off to customer for approval with the PM Custom Color Acceptance Letter.
4. Once PM receives the Custom Color Acceptance Letter and Purchase Order, a final order confirmation will be sent to customer.
5. Manufacturing could take up to 4 weeks depending on pigment availability.

Ordering PM Custom Colors

Please reach out to your Regional Manager to discuss PM custom color pricing, to see some of the custom colors we have made in the past, or to begin the process of matching a silicone to your custom color.
